mgr Alicja PALUCH
mgr Aleksandra GIMPEL
Gracjan MIERNICKI
Marcin ADAMCZYK
Teresa RUP

We invite representatives of many scientific disciplines. The subject of the conference is the continuation of the scientific discussion with the participation of interdisciplinary development threats in the aspect of information. No less important is cooperation in the field of research and teaching between domestic and foreign university employees. The main research problem of the conference is to find an answer to the question about the causes and

1. State security in the face of information activities
2. Social, economic and political functions of information
3. Information and its protection
4. Information and its importance in contemporary military activities
5. Manipulation of information and influence agency
6. Information society
7. Cyberspace environment information and disinformation
8. Education for safety

COPYRIGHT
